

gun metal

JULY 2006

NEW COLOUR

We now offer an additional colour for our stoves. GUNMETAL is an extremely attractive new shade - somewhere between black and pewter with a slight metallic finish.

Either pre-order your stove in this new colour or purchase one of our paint kits to re-spray the stove yourself.

CHARNWOOD COLOUR is a specially developed, high temperature stove paint formulated for an easy application. It is suitable for the following stoves in the Charnwood range: COVE stoves, ISLAND stoves, COUNTRY stoves, GROSVENOR stove (gas), COMPTON stove (electric), Matt SLX stoves, Matt LA stoves & fires (Not suitable for stoves with a vitreous enamel finish).

Please telephone 01983 537780 if you would like a sample.
