

# ISLAND I

The Charnwood Island I is the smallest stove in the Island collection. Its uncomplicated looks and gentle curves ensure it sits well in any situation; be it modern or traditional. Delivering an output of 2-7kW of heat it can take a log length of up to 370mm (14.5"). Optional convection panels are also available. With a rated output of 5kW the Island I, in certain situations, can be installed without the need for external air.
